required to earn exam voucher

A Professional Cloud Developer builds scalable and highly available applications using Google-recommended tools and best practices. This individual has experience with cloud-native applications, developer tools, managed services, and next-generation databases. A Professional Cloud Developer also has proficiency with at least one general-purpose programming language and instruments their code to produce metrics, logs, and traces.

Recommended candidate:

- 3+ years of industry experience including 1+ years designing and managing solutions using Google Cloud.
